.NET Developer (C#)

Description

- We are looking for a C# developer responsible for building C# applications, including anything from back-end services to their client-end counterparts. Your primary responsibilities will be to design and develop these applications, and to coordinate with the rest of the team working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and quality product is essential.
- Proficient in C#, with a good knowledge of its ecosystems
- Familiarity with the .NET framework
- Strong understanding of object-oriented programming
- Skill for writing reusable C# libraries
- Familiar with various design and architectural patterns
- Knowledge of concurrency patterns in C#
- Familiarity with Microsoft SQL Server (if deemed necessary for the project needs)
- Familiarity with Windows Presentation Framework (WPF)
- Knack for writing clean, readable C# code
- Understanding fundamental design principles behind a scalable application
- Creating database schemas that represent and support business processes
- Basic understanding of Common Language Runtime (CLR), its limitations, weaknesses, and workarounds
